Minimal space

Material Specification

- Galvanized and/or powder coated steel 80 x 80 mm construction;
- All screws covered with colorful plastic caps;
- No sharp edges or chinks that would pose a danger of jamming the head, fingers or any other body parts;
- Top of the construction secured with rubber caps;

Additional comments

- The equipment is certified by an accrediting organization or by certificate of conformity;
- Depth of foundations on a flat surface: 80/70/60 cm;
- The equipment is designed for public playgrounds; The equipment render is of an illustrative nature and shows only the general specification of the equipment, but not its actual appearance. The colours may differ from those demonstrated on render.

Surfaces

Due to the free fall height of the equipment, the EN 1176-1:2017 standard allows the following surfaces: sand with minimal layer thickness of 30 cm (A,C), synthetic material approved for free fall of 1,50 m (A,B,C)
